ABOUT OSMACOM

OUR HISTORY

OsmaCom is a member of the Osman Group of companies, Established in 2007, as a manufacturer of finest Prefabricated buildings and steel Structures dedicated to providing businesses in Egypt and the Middle East with a fast, efficient tailor made solutions that aim at setting the benchmark for excellence throughout the MENA region. Osmacom is a member of the Egyptian Federation for Construction and Building, obtaining a title among the first companies in its field. Osman Group (OG) comprises of more than thirteen companies specialized in the fields of construction, industrial, agricultural and commercial businesses. The group is considered as one of the largest and most reputable private corporations in the Middle East and Africa whose history goes back to the early 1950s.

The group's origin goes back to the Arab Contractors Company (TAC) that was established in the 1950s by Eng. Osman Ahmed Osman and his brother Eng. Hussein Ahmed Osman. The Arab Contractors Company was nationalized by the Egyptian government after the 1952 revolution. The group was established in 1977 under the investment law of Egypt No. 43 and has a paid capital of L.E. 25 millions. The group's annual turnover is surpassing over 1,000,000,000 EGP and is composed of several specialized industrial, contracting, agricultural and general engineering companies located in Egypt, Arab countries and all over the world. In the last few years, the labor force of Osman Group has surpassed more than four thousands employees and is still growing.

OUR VISION

As a region leader in the field of Steel & PEB Designing, Fabrication, Erection and Civil Works, Osmacom always works to we deliver complex and sophisticated construction solutions on time and within budget regardless of size or scope of the project.

We at Osmacom guarantee an economical and sophisticated steel solutions with minimum logistical costs and without having to compromise on creative architectural design. We always work to continually improve through the utilization of best practices, workforce empowerment and the latest technology in order to be your top source for steel fabrication

OUR MISSION

OsmaCom aims at fulfilling the explosive needs of the industrial sector at the desired quality and at a convenient time-frame. OsmaCom utilizes world-class technology and a pool of experts to establish new quality standards that comply with global quality standards and the various export requirements.

CORE VALUES

- Integrity
- Reliability
- Accountability
- Quality

SANDBLASTING - PAINTING

FIRE PAINTING

From conceptual design to the very end of the project, Osmacom deliver fast-track tailored services and seamless technical support for the best experience. It starts from engineering, procurement and manufacturing and extends into installing the building along with its accessories

ASSEMBLY AND ERECTION

COMMISSIONING AND PLANTS START-UP

ENGINEERING SERVICES

STEEL STRUCTURE FABRICATION
